**JESSICA WEBBER NAMED TO
KITCHEN & BATH DESIGN NEWS 2020 INNOVATORS**

Kitchen & Bath Design News names Innovators for 2020, citing groundbreaking leadership qualities, professionalism, design talents and business acumen.

Watkinsville, GA (November 24, 2020) — *Kitchen & Bath Design News*, the industry's leading trade magazine for kitchen and bath professionals published by SOLA Group, has announced its Innovators for 2020. Local business owner and kitchen & bath designer, Jessica Webber, was named to the list.

At a time when circumstances have compelled most businesses to find non-traditional, creative ways to survive, kitchen and bath firms have proven their adaptability, handling social distancing, supplier interruptions and reduced client income and not only surviving, but thriving. This resilience is due largely to individuals at the vanguard of the industry, those who have implemented pioneering business management strategies and technological solutions, as well as those who have embraced the evolving roles of the kitchen and bath as wellness-centered spaces in a work-from-home world.

“In a year that continues to surprise, I am honored to be included on this list with other talented designers and colleagues.” Says Jessica Webber

Nominated by their peers, the 2020 Innovators have ensured not only the survival and longevity of the kitchen and bath industry, but also that the industry will continue to be dynamic and future-focused. They have fostered a sense of community among other industry professionals both in-person and online and have extended a hand to the next generation of professionals.
